About the Company

Jason Forde and Dagan Ferrier started Forde-Ferrier in 1998 with the goal of providing high-quality, practical professional development to teachers in Texas. The concept grew out of their own classroom experience in Texas. Using the principles of the researched based instructional methods of Mastery Learning, the two teachers achieved pass rates of 100 percent and mastery rates well over 80 percent on the Texas standardized assessments at an At-Risk campus in south Texas. These incredible levels of success were maintained for over 10 years, at which time Forde and Ferrier began consulting with schools across Texas full-time.

The professional development system created by Forde and Ferrier was designed to provide high-quality training on the meaning of each student expectation listed in the Texas Essential Knowledge and Skills (TEKS), as well as proven instructional strategies for teaching each of these skills. Forde and Ferrier also dedicated themselves to learning how each skill would be assessed on the state assessment tests up through the State of Texas Assessments of Academic Readiness (STAAR®). This knowledge has proven extremely useful in predicting how TEKS skills will be assessed on the state assessments, including STAAR®, and has become an integral component of their professional development. The purpose of each professional development session is to help teachers ensure that every one of their students achieves mastery of the STAAR® test.

Soon after launching the company and providing several campuses with professional development training, Forde-Ferrier began development of practice test items at the request of

teachers who had benefited from their training sessions. Each item developed was designed to successfully emulate items on the actual STAAR® test. In fact, Forde-Ferrier has been so successful at this, many items that appear on STAAR® tests look very similar to items previously developed by Forde-Ferrier. All workbooks produced by Forde-Ferrier are filled with these items.

In addition to professional development and materials, Forde-Ferrier also provides model lessons using their proven strategies and intervention programs which have helped schools increase test scores as much as 50 percent.

By 2009 Forde-Ferrier expanded and became Forde-Ferrier, L.L.C. At this time several teachers joined the company, bringing their own classroom success along. One of these teachers, Hector Rivera, taught alongside Forde and Ferrier for many years, learned teaching strategies from them, used their materials, and achieved the same levels of success. Hector now serves as the Executive Director of Forde-Ferrier, L.L.C.

Forde-Ferrier, L.L.C. strives to build ongoing relationships with teachers, students, and school districts. All consultants truly believe in what they do and are excited when they help others succeed. The goal of the company always has been and always will be to help teachers and students achieve the highest levels of academic success.

STAAR is a federally registered trademark and service mark of the Texas Education Agency. Forde-Ferrier, L.L.C. is not sponsored by or associated or affiliated with the Texas Education Agency, which has not endorsed the products or services of Forde-Ferrier, L.L.C.

All of our tests are written “on demand” and not printed from a pre-generated computer bank. New items are constantly written, reviewed, and updated by content experts. This ensures each assessment we create is based on the latest information about STAAR® and accurately measures mastery of the TEKS. In most cases, results on our comprehensive practice STAAR® tests have mirrored actual STAAR® test results.

WRITTEN COMPOSITION: Expository

READ the information in the box below.

No matter how old we are, we can always learn something new.

THINK about all the things you would like to learn.

WRITE about one thing you would like to learn. Tell what you would like to learn and explain why you would like to learn it.

Be sure to –

- clearly state your central idea
- organize your writing
- develop your writing in detail
- choose your words carefully
- use correct spelling, punctuation, grammar, and sentences

Read the selection and choose the best answer to each question. Then fill in the answer on your answer document.

When John was asked to write a report, he chose to write about a topic he was interested in. After doing some research, he wrote this report. Read John's report and look for the corrections he should make. Then answer the questions that follow.

Home Away From Home

(1) The Earth is a remarkable planet since it is home to more than 7 billion people and 6.7 million different species. (2) For a long time, scientists believed that the Earth was unique. (3) But, in our planet weal one of a kind, or is there another Earth-like planet that could support life as we know it?

(4) Scientists are working hard to answer this question, so in 2009, they opened the Kepler Space Telescope. (5) The Kepler Space Telescope is specially designed to search for Earth-sized planets near stars that are similar to our sun. (6) So far, scientists have identified more than 700 planets that fit the bill. (7) Two of the more exciting

Earth. (11) Since Kepler-22b is roughly the same distance from its star as we are from our sun, the planet is probably the same temperature as Earth. (12) There's even a good chance that Kepler-22b has water on its surface. (13) But there's one big problem. (14) The planet is most likely entirely covered with water, with no land to stand on. (15) Scientists believe that Kepler-22b's surface ocean is thousands of miles deep. (16) It may support some forms of aquatic life, but it's no place for humans.

(17) Kepler-6b was discovered in 2013 and, like Earth, it is a rocky planet. (18) It may even have water on its surface, but a year on Kepler-6b is only 243 days long. (19) This means that the planet orbits closer to its star than we do to our sun. (20) As a result, Kepler-6b may be too hot to support human life. (21) Scientists now believe that the "Earth-like" planet is actually more like Venus, which has a year that is 255 days long. (22) If they are right, the liquid water may have dried up long ago.

(23) So far, scientists have yet to find an Earth-like planet that's a perfect match to our own. (24) However, planets like Kepler-22b and Kepler-6b show that Earth-like planets are more common than people once thought. (25) Scientists will continue to look for planets with sizes, orbits, and compositions similar to our Earth's. (26) Maybe, we will learn that the Earth really is unique among billions in our galaxy of planets. (27) But more than likely, we'll find that it's only a matter of time before we discover our "home away from home" in space.

1 What change needs to be made in sentence 2?

A. Change **Earth** to **earth**
B. Change **was** to **were**
C. Change **accelerate** to **scientists**
D. No change needs to be made in sentence 2.

2 What change should be made in sentence 3?

F. Delete **weal**
G. Change **weal** to **really**
H. Change **there** to **their**
I. Insert a comma after **that**

3 How should sentence 5 be changed?

A. Change **Space** to **space**
B. Change **stars** to **star**
C. Change **near** to **our**
D. Sentence 5 should not be changed.

MASTERY READING:
Grades 3-8 & Grades 3-5 in Spanish

CSPS NARRATIVE
MASTERY READING:
Grades 2-8 & Grades 2-5 in Spanish

Reading/Writing Workbooks

Mastery Reading NEW
The Mastery Reading books provide teachers and students with several complete practice reading passages. Each passage has the “look and feel” of the actual STAAR® Reading Test.

CSPS Narrative Mastery Reading NEW
CSPS Narrative Mastery Reading contains passages that concentrate on our CSPS learning method. It will ensure that your students have a complete understanding of Narrative text so they may master the STAAR Reading Assessment.

Mastery Write Writing UPDATED
Editing & Revision | Test Book
Prepare students for the STAAR® Writing Test or simply reinforce writing skills with this workbook. Students will practice all Writing STAAR® Reporting Categories, including identifying sentence fragments, capitalization and punctuation rules, and grammar mistakes by editing 75 different samples of writing.

Informational Mastery Reading UPDATED
Informational Reading Passages is a workbook on informational texts and will help ensure that your students master the Reporting Category 3 of the STAAR® Reading Assessment. This is an invaluable resource for reading and is entirely devoted to expository text!

SCIENCE CVP: CONTENT, VOCABULARY, AND PRACTICE

Grades 3-5 & 8
Grades 3-5 Available in Spanish

Science & Social Studies Workbooks

Science Reading Stories

Practice for both the science and reading tests using our new Science Stories workbook. The book includes over 20 narrative passages which cover science concepts tested on STAAR®. Great for both science and reading teachers.

Science Word Wall

This kit includes all necessary vocabulary words from Earth, Life, and Physical Science. Each word is displayed on a piece of cardstock in large, black letters ready to be printed and mounted on a word wall in the classroom. Great visual reference to use throughout the school year to prepare for the Science STAAR® test.

CD includes the site license for the entire campus!

Science CVP

This is the ultimate resource for the STAAR® Science test. This workbook includes supplemental material to prepare students for the STAAR® Science Test. All TEKS skills are covered with mini-lessons focusing on each specific skill. Each skill includes a lesson with an overview, vocabulary, vocabulary practice, concept practice (fill in the blank), and a final test. Test questions incorporate process skills with the content standards to reflect the more rigorous standards of the STAAR® test.

Social Studies

Category 1, Categories 2-4, & Readiness Review

The Category 1 book features 360 STAAR® formatted questions. Each item in each Standard in Category I is assessed in at least one question format and includes dual coded process standards, especially 8.29B and 8.29C that are the most common found on the SS STAAR® test. These dual coded questions focus on the; sequencing of events in a timeline, completion of cause/effect graphic organizers and analysis, evaluation and interpretation of primary/secondary sources and excerpts, graphic organizers, visuals and maps.

Category 2-4 have STAAR® formatted questions focused on Geography and Culture, Government and Citizenship, and Economics, Science, Technology and Society. The rigorous STAAR® type questions include the most commonly assessed process skill standards that are tested each year.

Science Review & Assessment: **UPDATED**

Our new Science Review and Assessment book contains 10 short 10-item mini-assessments, a comprehensive test covering each of the major areas of fifth or eighth grade Science, and a benchmark test based on the TEA blueprints for the STAAR™. A year's worth of STAAR™ practice is covered in this single workbook. The Science Review and Assessment workbook used along with the Forde-Ferrier Science CVP Workbook will ensure mastery of the grade 5 or 8 Science STAAR™ Test.

CONSULTING LET US SHOW YOU HOW TO BE A MASTER!

Intervention:

Our expert consultants can work with your students at your campus on the skills they need the most. Our record of success is phenomenal! We have worked with small groups of students for just a few days and have seen them all pass their state tests.

Consulting:

Our consultants have been to hundreds of campuses working alongside teachers with the goal of reaching the highest levels of academic success. We provide the following services: teacher training, model lessons, academic planning, and student intervention. Our hands-on approach to training has been proven to be one of the most successful ways to improve student academic performance.

Consulting Skills:

- NEW TEKS SKILLS
- WHAT AND HOW TO TEACH
- CRITICAL THINKING SKILLS
- HOW TO MAXIMIZE CONTENT
- COVERS ALL TARGET AREAS
- LEARN THE SECRETS TO GET ALL YOUR STUDENTS TO NOT ONLY PASS THE TEST BUT ACHIEVE THE HIGHEST STANDARDS

PROFESSIONAL DEVELOPMENT

Math, Reading, Writing & Science

Math Training:

Our Math training for grades 3-5 is based completely on the Math TEKS. All Math skills in grades 3-5 will be explained, instructional strategies will be provided for each skill, and the way each skill will be tested on STAAR® will be discussed. Teachers will leave the training with all the tools needed to teach and assess the latest skills.

- Training to explain all Math TEKS in grades 3, 4, and 5
- Instructional strategies for the Math skills
- Coaching on the different ways the skill could be assessed on STAAR®

Science Training:

This session will answer all your instructional questions to help you meet the need of your students in the science classroom. What to teach, how to teach, and when to teach will all be explained. Science concepts will be modeled and specific skills will be covered. How to maximize vocabulary development and integrate content will also be on the agenda. Learn how to get all your students to pass the STAAR® Science Test.

Writing Training: **UPDATED FOR NEW TEKS! AVAILABLE IN SPANISH**

These sessions will focus on the essential writing traits that all students need to include when expressing themselves on paper. Find out how to get your students to make sense, and write like they mean it. Learn how to teach specific grammar, punctuation and capitalization skills, and identify complete sentences.

Reading Training: **UPDATED FOR NEW TEKS! AVAILABLE IN SPANISH**

These sessions will focus on all reading objectives students must master in order to pass the STAAR® Test. Learn how to increase comprehension and fluency among your students, and how to teach specific reading skills, such as main idea, summarizing, sequencing, fact and opinion, and inference. Find out everything necessary for your students to become successful readers and the secret to getting all your students to pass the STAAR® Reading Test.
