TEACHING FOR MASTERY
SINCE 1998

DIGITAL NOW AVAILABLE!

About the Company

Jason Forde and Dagan Ferrier started Forde-Ferrier in 1998 with the goal of providing high-quality, practical professional development to teachers in Texas. The concept grew out of their own classroom experience in Texas. Using the principles of the researched based instructional methods of Mastery Learning, the two teachers achieved pass rates of 100 percent and mastery rates well over 80 percent on the Texas standardized assessments at an At-Risk campus in south Texas. These incredible levels of success were maintained for over 10 years, at which time Forde and Ferrier began consulting with schools across Texas full-time.

The professional development system created by Forde and Ferrier was designed to provide high-quality training on the meaning of each student expectation listed in the Texas Essential Knowledge and Skills (TEKS), as well as proven instructional strategies for teaching each of these skills. Forde and Ferrier also dedicated themselves to learning how each skill would be assessed on the state assessment tests up through the State of Texas Assessments of Academic Readiness (STAAR®). This knowledge has proven extremely useful in predicting how TEKS skills will be assessed on the state assessments, including STAAR®, and has become an

integral component of their professional development. The purpose of each professional development session is to help teachers ensure that every one of their students achieves mastery of the STAAR® test.

Soon after launching the company and providing several campuses with professional development training, Forde-Ferrier began development of practice test items at the request of teachers who had benefited from their training sessions. Each item developed was designed to successfully emulate items on the actual STAAR® test. In fact, Forde-Ferrier has been so successful at this, many items that appear on STAAR® tests look very similar to items previously developed by Forde-Ferrier. All workbooks produced by Forde-Ferrier are filled with these items.

In addition to professional development and materials, Forde-Ferrier also provides model lessons using their proven strategies and intervention programs which have helped schools increase test scores as much as 50 percent.

By 2009 Forde-Ferrier expanded and became Forde-Ferrier, L.L.C. At this time several teachers joined the company, bringing their own classroom success along. One of these teachers, Hector Rivera, taught alongside Forde and Ferrier for many years, learned teaching strategies from them, used their materials, and achieved the same levels of success. Hector now serves as the Executive Director of Forde-Ferrier, L.L.C.

Forde-Ferrier, L.L.C. strives to build ongoing relationships with teachers, students, and school districts. All consultants truly believe in what they do and are excited when they help others succeed. The goal of the company always has been and always will be to help teachers and students achieve the highest levels of academic success.

ULTIMATE MATH WORKBOOK

NEW 9TH EDITION
Grades 3-5

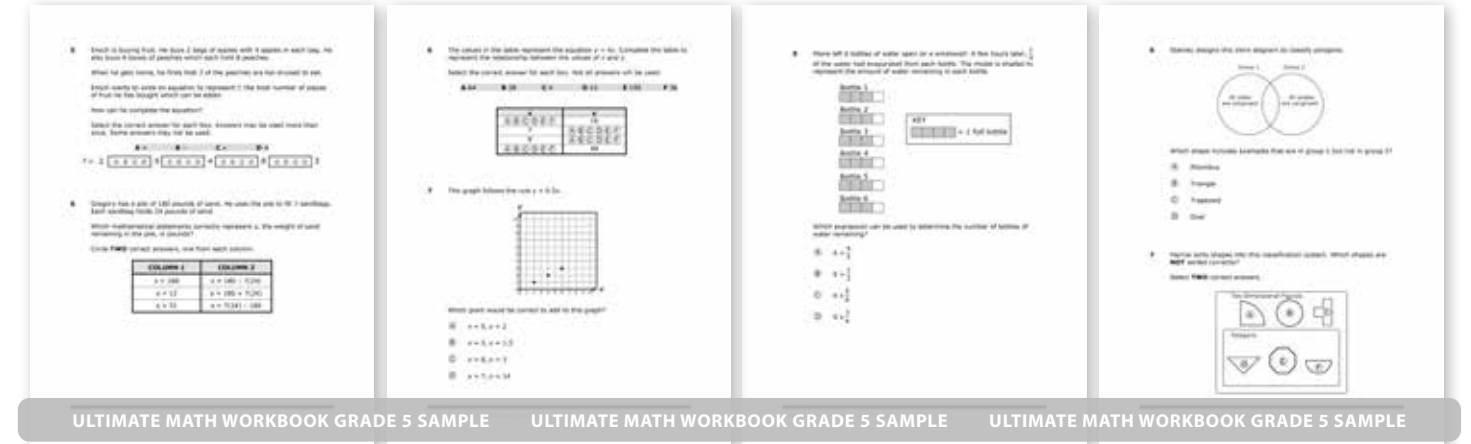

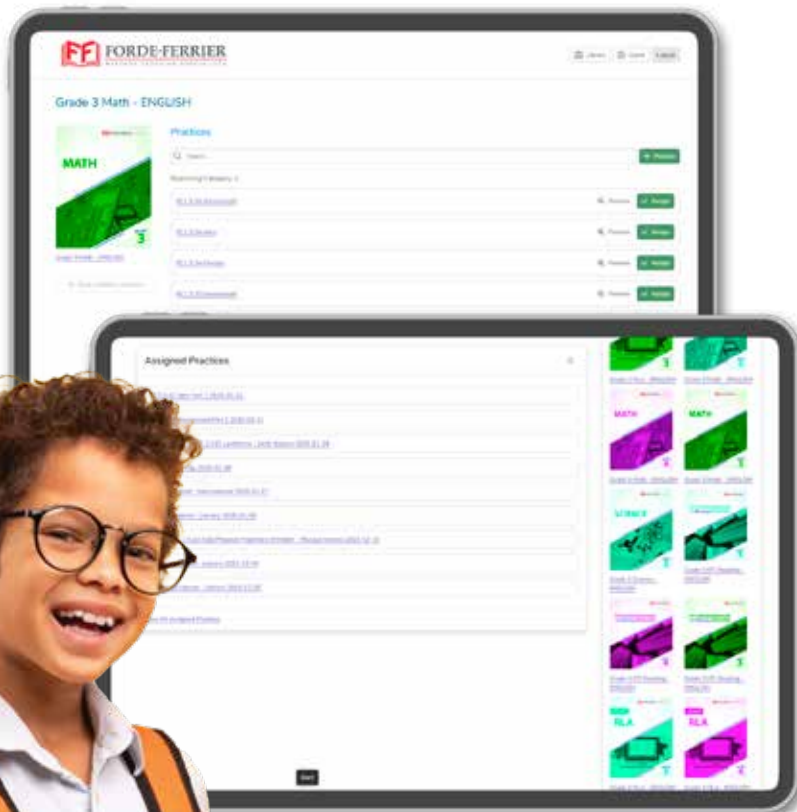

Math Workbooks

Our math workbooks are designed to provide students with practice on every single TEKS student expectation. Content only items and incorporated process (dual coded) items are included for every skill. Skills are labeled as readiness or supporting. Every item has been reviewed by content experts to ensure its validity. Mastery of the items in our math workbooks ensures mastery on the STAAR® Math Assessment.

Ultimate Math Workbook

Based on the latest information about the TEKS student expectations and how each will be assessed on STAAR, our math workbooks are designed to provide hundreds of practice items for your students. The items are designed to provide students with opportunities to have collaboration and discourse. Each item can be analyzed by individual students, small groups or the whole class to determine the best strategy to solve it.

PROFESSIONAL DEVELOPMENT

Math, Reading, Writing & Science

Math Training:

Our Math training for grades 3-5 is based completely on the Math TEKS. All Math skills in grades 3-5 will be explained, instructional strategies will be provided for each skill, and the way each skill will be tested on STAAR® will be discussed. Teachers will leave the training with all the tools needed to teach and assess the latest skills.

Science Training:

This session will answer all your instructional questions to help you meet the need of your students in the science classroom. What to teach, how to teach, and when to teach will all be explained. Science concepts will be modeled and specific skills will be covered. How to maximize vocabulary development and integrate content will also be on the agenda. Learn how to get all your students to pass the STAAR® Science Test.

Writing Training:

These sessions will focus on the essential writing traits that all students need to include when expressing themselves on paper. Find out how to get your students to make sense, and write like they mean it. Learn how to teach specific strategies for revising, editing and extended constructed responses.

Reading Training:

These sessions will focus on all reading objectives students must master in order to pass the STAAR® Test. Learn how to increase comprehension and fluency among your students, and how to teach specific reading skills, such as central idea, summarizing, and inference. Find out everything necessary for your students to become successful readers and the secret to getting all your students to pass the STAAR® RLA Reading Test.

CONSULTING LET US SHOW YOU HOW TO BE A MASTER!

Consulting:

Our consultants have been to hundreds of campuses working alongside teachers with the goal of reaching the highest levels of academic success. We provide the following services: teacher training, model lessons, academic planning, and student intervention. Our hands-on approach to training has been proven to be one of the most successful ways to improve student academic performance.

Intervention:

Our expert consultants can work with your students at your campus on the skills they need the most. Our record of success is phenomenal! We have worked with small groups of students for just a few days and have seen them all pass their state tests.

Consulting Skills:

- NEW TEKS SKILLS
- WHAT AND HOW TO TEACH
- CRITICAL THINKING SKILLS
- HOW TO MAXIMIZE CONTENT
- COVERS ALL TARGET AREAS
- LEARN THE SECRETS TO GET ALL YOUR STUDENTS TO NOT ONLY PASS THE TEST BUT ACHIEVE THE HIGHEST STANDARDS
